Executive Director  
MoveOn  
1442 Walnut Street, Suite 358

Ms. Epting:

We write to you with significant concerns that American progressive advocacy groups may be advancing U.S. government economic and environmental policies to the benefit of the Chinese Communist Party (CCP).

In a July 7, 2021 letter, MoveOn, along with more than 40 other progressive groups, called on the Biden-Harris Administration and the Congress to abandon an “antagonistic posture” towards China in favor of a more cooperative relationship to combat climate change.<sup>1</sup> In doing so, MoveOn appears to be requesting the U.S. government not only to ignore China’s crackdown on Hong Kong and its atrocious human rights abuses, including its continued genocide of Uyghur Muslims, but also to ignore the clear threat China poses to America’s economic and national security.

Specifically, you wrote that “anti-China rhetoric” does nothing to “support the wellbeing of everyday people” in *China* and you blame the United States for climate emissions, while ignoring China’s human rights abuses and dominant contribution to global greenhouse gas emissions.<sup>2</sup> You demand the United States “do much more than China” to address climate change “equitably.”<sup>3</sup> Shockingly, this letter reads more like CCP propaganda designed to blame

and weaken the United States to benefit China's national and economic security agenda. It's noteworthy that the CCP's official newspaper, *People's Daily*, covered your letter on July 9, 2021, to argue for better cooperation, precisely what you demand.<sup>4</sup>

China's foreign influence campaign is well-known. The CCP's strategy is first to cut off criticism of China's government, then to co-opt American influences to promote China's narrative.<sup>5</sup> China's goal is to "influenc[e] the influencers" in order to get "Americans to carry its message to other Americans."<sup>6</sup> Your July 7, 2021 letter appears to reflect the CCP's strategy to cut off criticism of China's government and to promote the CCP's preferred policy interests.

We are concerned that foreign interests may be influencing your advocacy activities directed toward Congress. In light of our jurisdiction over foreign commerce and environmental policy, we seek to understand the relationship between your work and Chinese efforts to influence U.S. policy development. Accordingly, to assist us in our oversight of China's influence and our initial steps to examine this important matter, please respond to the following questions no later than October 15, 2021:
